1.INTRODUCTION

1.1 Project Overview

As our lives are very busy these days, we often feel we need more than 24 hrs. a day to cope up with everything we have in our schedule. Well, that's not possible but reducing the time by changing the conventional method of reading news can help. Just tell us what market news you're interested in and get a quick peek for the day. Only read what you feel is relevant and save your time. This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.

1.2 Purpose :

Newspapers are one of the most popular and most needed commodities in our daily life. In today's busy world, reading newspapers has become one of the traditional ways of getting news. News is produced every minute and distributed via television, radio and the Internet, so the news updated the next morning is already outdated. So newspaper and magazine publishers have a hard time keeping up with the pace. Change is needed and publishers must embrace mobile.

2.2 Problem Statement Definition

In today's world we have a lot of work and there is no time to cope up everything in the schedule. So, it is not possible to read the newspaper. By using this application, the user can access the news they are interested and get a quick peek for the day. There are multiple news-sharing apps used by a single user and are often spammed with notifications. There is also a lot of fake news which gets shared. A news-sharing app wants to help users find relevant and important news easily every day and also understand

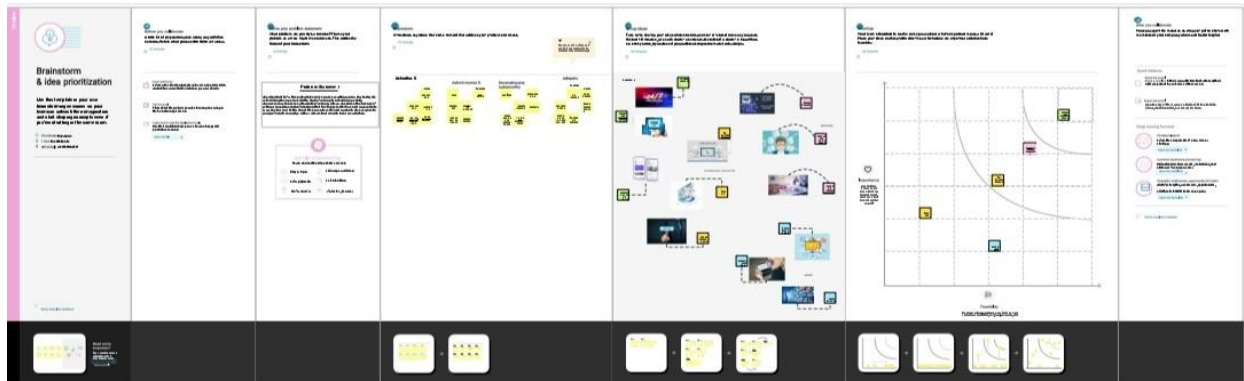

explicitly that the news is not fake but from proper sources. This news tracker application helps the user to get all information about commodities, sports, technology, education etc. The user can register using their personal details and interacts with the application and save their time. • Creating an app that benefits with the smart news filtering functionality where it allows its users to segregate various news sections, comprising of business, sports, political, international, and more. The users can opt for filters like Breaking News, Most Popular, and more. • Creating a user-friendly news app that would not just have good number of features, but will also be able to get accessed by different types of users keeping the experience delightful

3.IDEATION & PROPOSED SOLUTION

3.1. Empathy Map Canvas

3.2. Ideation & Brainstorming

3.3. Proposed Solution

S.NO	Parameter	Description
1	Problem Statement (Problem to be solved)	Statement: Everyday, a lot of events happen world-wide and we rely on newspapers, television and news articles to get the reliable and trustworthy information about these events. Description: As a result, we created a platform that offers such news from reliable sources worldwide, in an organized and efficient manner.
2	Idea / Solution description	One platform for all local and worldwide news. Trustworthy and Reliable News. Fast and efficient system. Preventing spread of False information. Data Storage and Backup. Communication.
3	Novelty / Uniqueness	A cloud computing-based news application that generates news and reports about the happenings around the world using computers and network (Internet). News based on most reliable and trustworthy resources around the world. Developing the Eco- Friendly & sustainability based on centre.
4	Social Impact / Customer Satisfaction	Cloud computing offers a way to create, coordinate, and share information across the globe. The adoption of cloud-based services gives access to a wider range of data and sharing the important

		information in an efficient way. Our platform eliminates the spread of false news and exposes the injustice and wrongdoings done by false groups. Eliminating the fake news provides better understanding of the real-events happening in the world and the spread of knowledge.
5	Business Model (Revenue Model)	Our application covers a range of topics including politics, business, criminal justice, environment, technology etc. Our business model will be monetized and generate income by showing advertisements and Operating on monthly and yearly subscription model.
6	Scalability of the Solution	Scalability is one of the benchmarks of the cloud services and its adoption with businesses. Cloud scalability will help to increase the user base by increasing the resource allocation and meeting the changing demands without sacrificing the efficiency or quality of our customer service and internal operations. Providing fast and reliable news while maintaining positive relationships with your customers.

3.4. Problem Solution fit

Project Title: News Tracker Application

Project Design Phase-I - Problem Solution Fit

Team ID:PNT2022TMID23533

Define CS, Mission & C	1.CUSTOMER SEGMENT(S) Hackers,CCTNS(crime and criminal tracking network and system),commercial and scientific purposes,media monitoring.	6.CUSTOMER CONSTRAINTS As much as service providers need to cater to the needs of their customers, it is just as important for them to satisfy their customers.	5.AVAILABLE SOLUTIONS The internet and the intermingling of social media with important worldwide events has made it almost impossible to live under a rock. But finding a reliable one-stop shop to engage with your news can be somewhat of a challenge.	Explore CS, Interview & Research
	2.JOBS-TO-BE-DONE / PROBLEMS We've written a whole white paper on the topic ,and examples of how our stories have produced such change-from the registration. It corrupt officials to the passage of news laws-are compiled in our annual reports, on this page you'll find our reporting on the impact of our work.	9.PROBLEM ROOT CAUSE User doesn't want to waste time figuring out the the relevance of the news young people don't read news from apps, usually depend on social media to get updated Users sometimes get overwhelmed by too many categories.	7.BEHAVIOUR User experience,content performance popularity sharing the news, conversion rate optimization ,checkout process website accesability,livechat and first and formost,user data is super important.	
Focus on USP / competitive advantage & C	3.TRIGGERS This news app is a big interactive database that think of it like would any other piece of journalism .It just uses software instead of words and pictures.	10. YOUR SOLUTION Realtime monitoring ,working condition is ensured and restricted permission from entering highly secured areas.	8.CHANNELS of BEHAVIOURS 8.1 ONLINE A few of these local stories were the result of formal partnerships, but the majority were done quite independently – in some cases, we didn't have much if any knowledge that the story . 8.2 OFFLINE Although marketing has gone largely digital, the offline advertising world is still a significant one, means a lot of money gets spent on display ads.	Focus on USP / competitive advantage & C
	4.EMOTIONS: BEFORE /AFTER Fearness,satisfaction,anger and two sentiments(positive and negative)using to extraction.			
Identify strong TRAIEN				Extract content using ChatGPT

4.REQUIREMENT ANALYSIS

4.1 Functional requirement

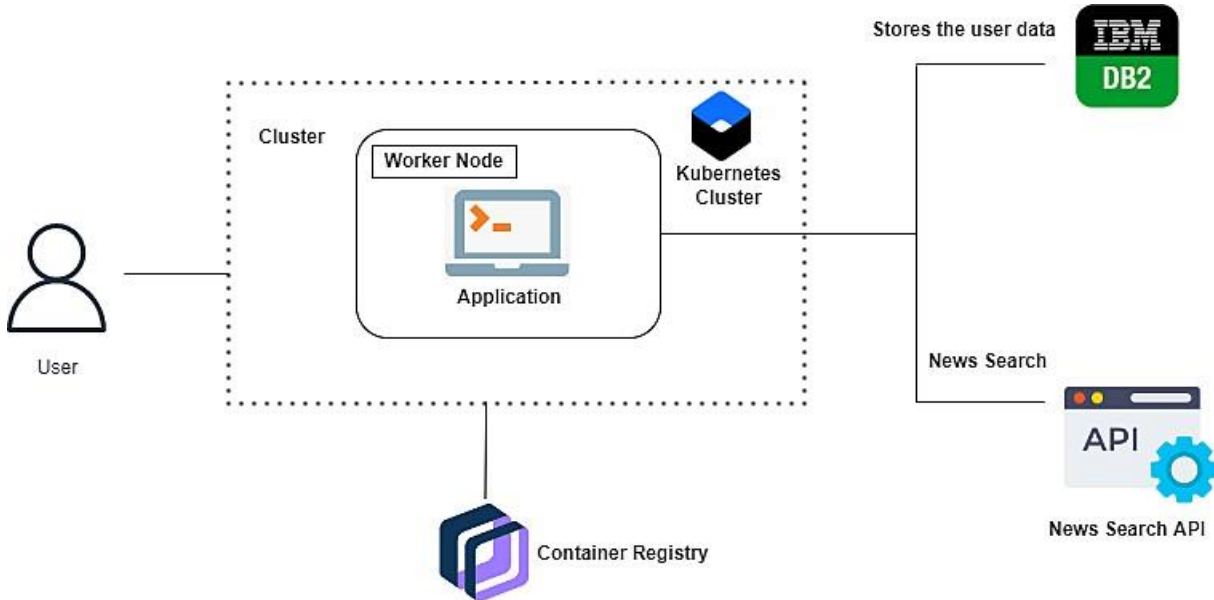

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Installation	User can install the app from Google play store or from the website
FR-2	User Registration	Registration through Form Registration through Gmail
FR-3	User Confirmation	Confirmation via Email
FR-4	User Login	User should login the app with the user's name and password

4.2 Non-Functional requirements

FR No	Non-Functional Requirement	Description
NFR-1	Usability	Everyone can understand the process of using the app easily by the commands given in the app
NFR-2	Security	It is a more secured app. No fake news can be shared.
NFR-3	Performance	Performance of the app is very great
NFR-4	Availability	More sub categories are available

5.PROJECT DESIGN

5.1Data Flow Diagrams

5.2. Solution & Technical Architecture

- The user interacts with the application.
- Registers by giving the details.
- Integrate the application with news APIs and store the data in the database.
- The database will have all the details and the user can search the news by using a search bar.

5.3.User Stories

As our lives are very busy these days, we often feel we need more than 24 hrs. a day to cope up with everything we have in our schedule. Well, that's not possible but reducing the time by changing the conventional method of reading news can help. Just tell us what market news you're interested in and get a quick peek for the day. Only read what you feel is relevant and save your time. This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.... as on official websites.

6.PROJECT PLANNING & SCHEDULING

6.1.Sprint Planning & Estimation

Sprint	Functional Requirement (Epic)	User Story Numbe	User Story / Task	Story Points	Priority	Team Members
Sprint-1	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	2	High	GNANESWAR.D SRINIVASALU SELVABHARATHI KISHORE KUMAR.R
Sprint-1		USN-2	s a user, I will receive confirmation email once I have registered for the application	1	High	SRINIVASALU GNANESWAR.D SELVABARAATHI KISHORE
Sprint-2		USN-3	As a user, I can register for the application through Facebook	2	Low	SRINIVASALU GNANESWAR.D SELVABARATHI KISHORE
Sprint-1		USN-4	As a user, I can register for the application through Gmail	2	Medium	SELVABARAATHI SRINIVASALU KISHORE GNANESWAR.D
Sprint=1	Login	USN-5	As a user, I can log into the application by entering email & password	1	High	KISHORE GNANESWAR.D SELVA

						SRINIVASALU
--	--	--	--	--	--	-------------

Sprint-3	Dashboard	USN-6	As a user, I will able to see the login and profile details	2	Medium	KISHORE SELVA GNANESWAR SRINIVASALU
Sprint-1	IBM cloud	USN-10	As a tracker, I collect all the NEWS from the cloud	1	Medium	SRINIVASALU SELVABARATHI GNANESWAR KISHORE
Sprint-3	IBM cloudant	USN-11	As a database manager, I can collect all the user details and NEWS application details	2	Medium	GNANESWAR SELVABARATHI KISHORE SRINIVASALU

6.2.Sprint Delivery Schedule

Sprint	Total Story Points	Duration	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	20	6 Days	24 Oct 2022	29 Oct 2022	20	29 Oct 2022
Sprint-2	20	6 Days	31 Oct 2022	05 Nov 2022	20	05 Nov 2022
Sprint-3	20	6 Days	07 Nov 2022	12 Nov 2022	20	12 Nov 2022
Sprint-4	20	6 Days	14 Nov 2022	19 Nov 2022	20	19 Nov 2022

6.3. Reports from JIRA

Sprint-1

The screenshot shows the Jira Software interface for the 'my testings' project. The left sidebar contains navigation options: Roadmap, Backlog (selected), Board, Code, Project pages, Add shortcut, and Project settings. The main area displays the 'Backlog' for 'ITT Sprint 1' (15 Nov – 25 Dec, 5 issues). The issues are:

- IT-4 hg (DONE)
- IT-9 creating flask project (DONE)
- IT-12 creating database (DONE)
- IT-11 ideation phase (DONE)
- IT-10 deployment of app in cloud (DONE)

Below the sprint, there is a section for 'ITT Sprint 3' (25 Dec – 8 Jan, 4 issues). A 'Quickstart' button is visible in the bottom right corner of the sprint area. The bottom of the screen shows a Windows taskbar with the search bar and various application icons.

Sprint-2

The screenshot shows the Jira Software interface for the 'my testings' project. The left sidebar contains navigation options: Roadmap, Backlog (selected), Board, Code, Project pages, Add shortcut, and Project settings. The main area displays the 'Backlog' for 'ITT Sprint 2' (15 Nov – 11 Dec, 4 issues). The issues are:

- IT-5 ibm_db python package (DONE)
- IT-13 ibm cloudant package (DONE)
- IT-14 creating login page (DONE)
- IT-15 creating sign in page (DONE)

Below the sprint, there is a section for 'ITT Sprint 1' (11 Dec – 25 Dec, 4 issues). A 'Quickstart' button is visible in the bottom right corner of the sprint area. The bottom of the screen shows a Windows taskbar with the search bar and various application icons.

Sprint-3

The screenshot shows the Jira Software interface for a project named "my testings". The left sidebar contains navigation options: "my testings" (Software project), "PLANNING" (Roadmap, Backlog, Board), "DEVELOPMENT" (Code), "Project pages", "Add shortcut", and "Project settings". The main area displays the "Backlog" for "my testings". The "ITT Sprint 3" (15 Nov - 8 Jan) is selected, showing 4 issues. The issues are:

- ITT-16: backend code of login page (DONE)
- ITT-19: change the data in json format to store in database (DONE)
- ITT-18: connecting the ui interface with database (DONE)
- ITT-17: backend code for sign in page (DONE)

The "ITT Sprint 4" (8 Jan - 22 Jan) is also visible, showing 1 issue:

- ITT-20: create a new interface for news application (IN PROGRESS)

The bottom of the screen shows the Windows taskbar with the search bar and various application icons.

Sprint-4

The screenshot shows the Jira Software interface for a project named "my testings". The left sidebar contains navigation options: "my testings" (Software project), "PLANNING" (Roadmap, Backlog, Board), "DEVELOPMENT" (Code), "Project pages", "Add shortcut", and "Project settings". The main area displays the "Backlog" for "my testings". The "ITT Sprint 4" (15 Nov - 22 Jan) is selected, showing 4 issues. The issues are:

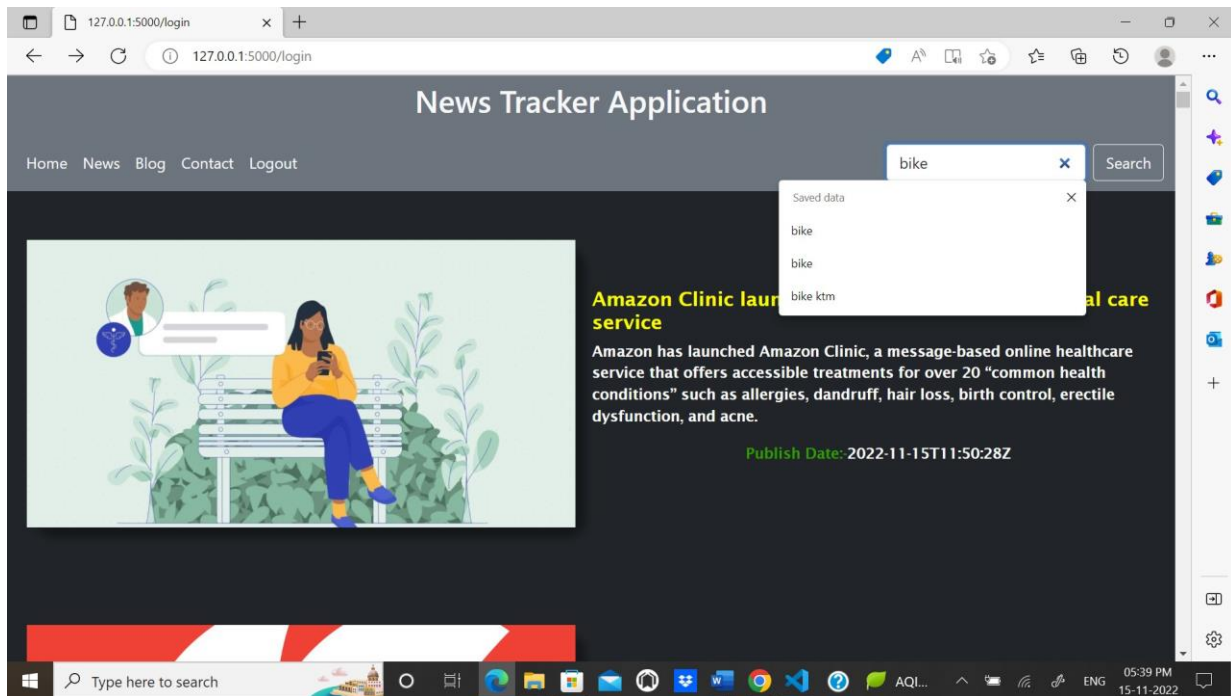

- ITT-23: inserted a search button to search the news (DONE)
- ITT-22: connecting with news api (DONE)
- ITT-21: connecting th interface with backend code (DONE)
- ITT-20: create a new interface for news application (DONE)

The "Backlog" (0 issues) is also visible, showing a message: "Your backlog is empty."

The bottom of the screen shows the Windows taskbar with the search bar and various application icons.

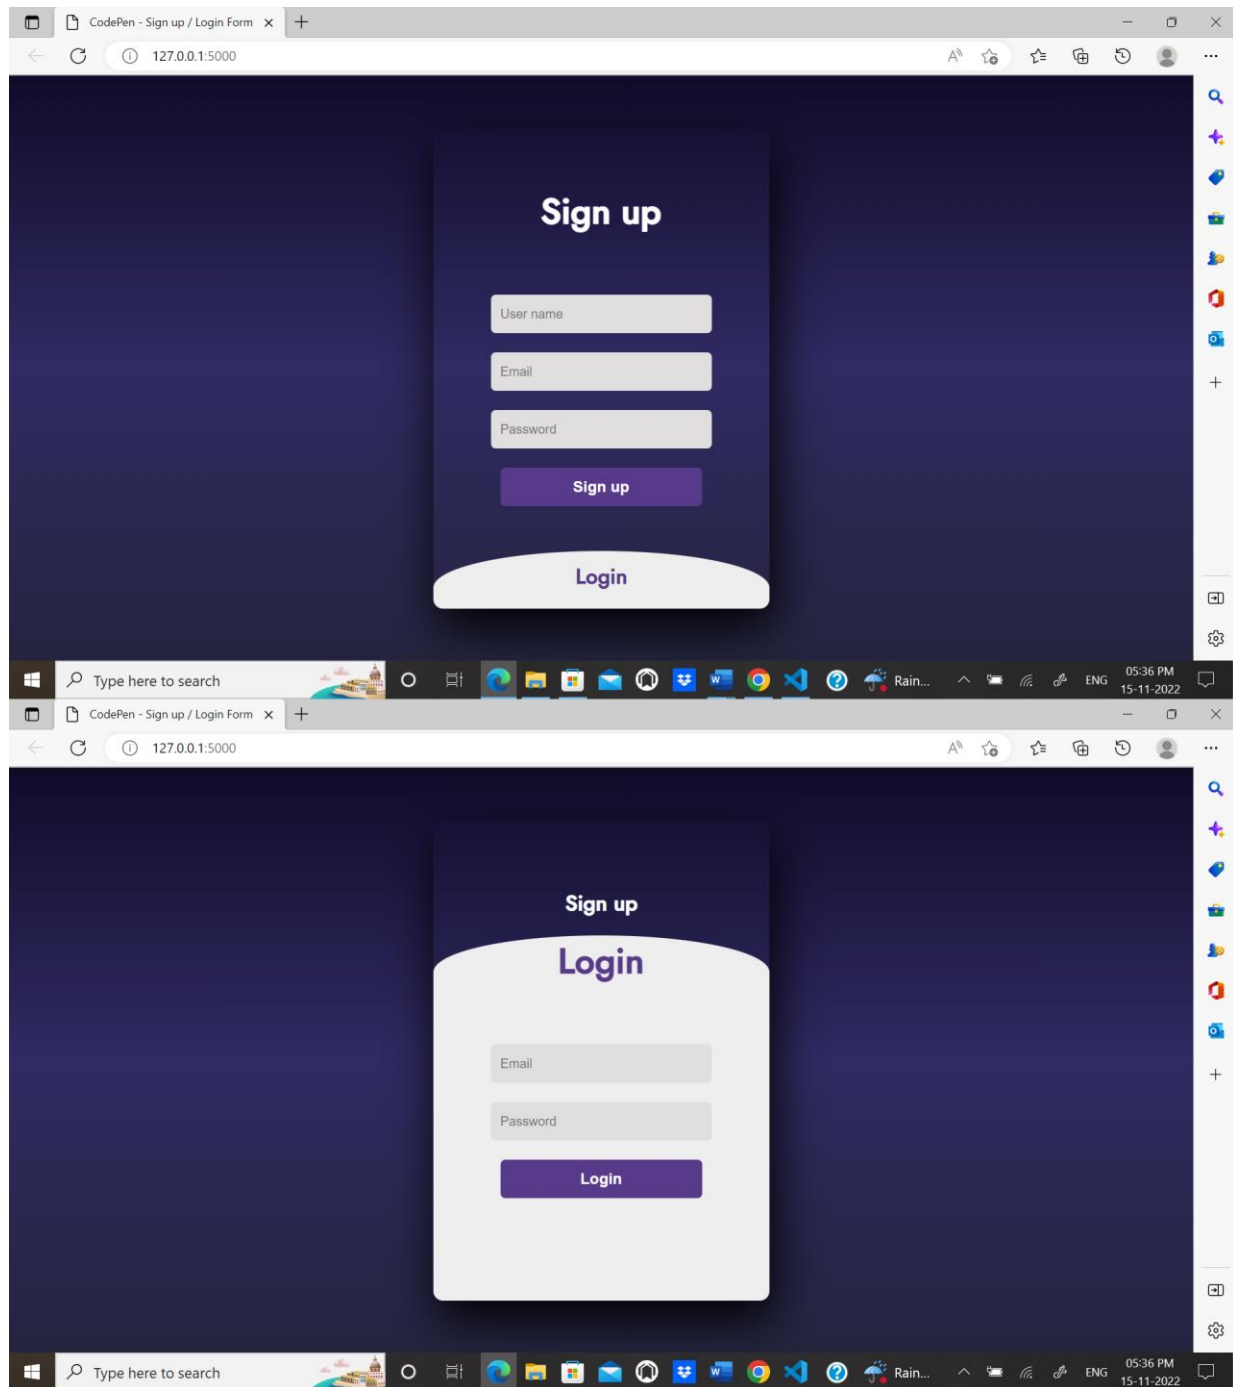

7.CODING & SOLUTIONING

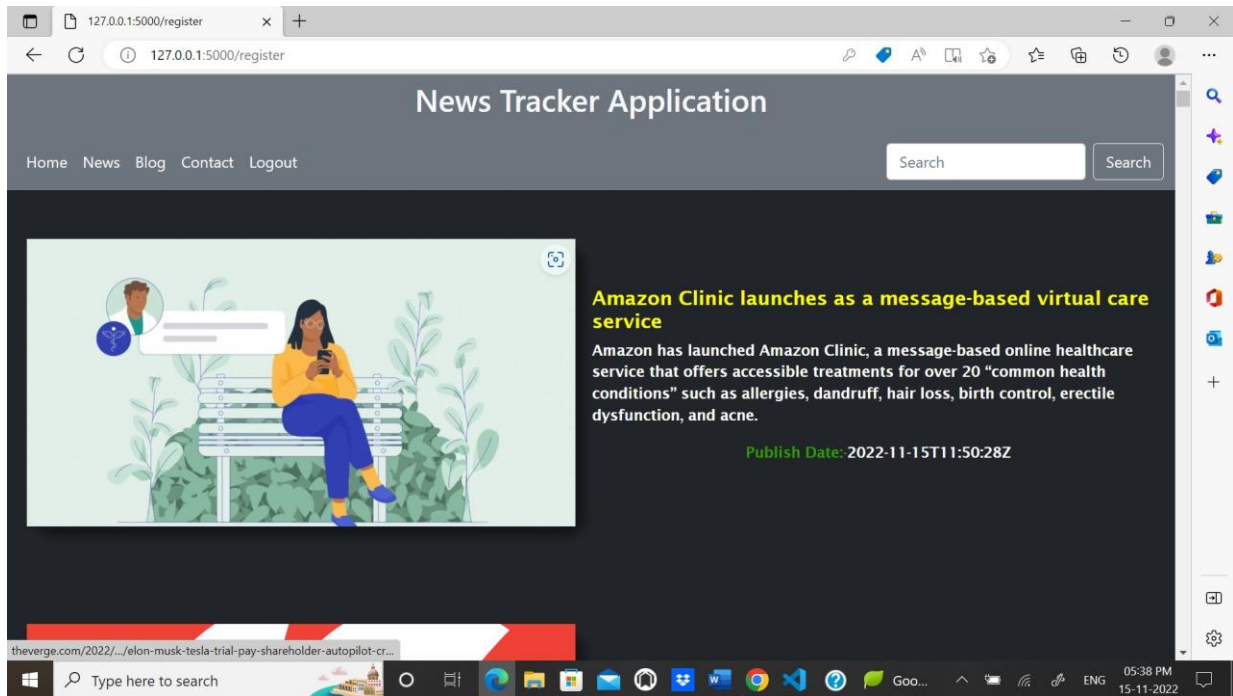

7.1Feature 1

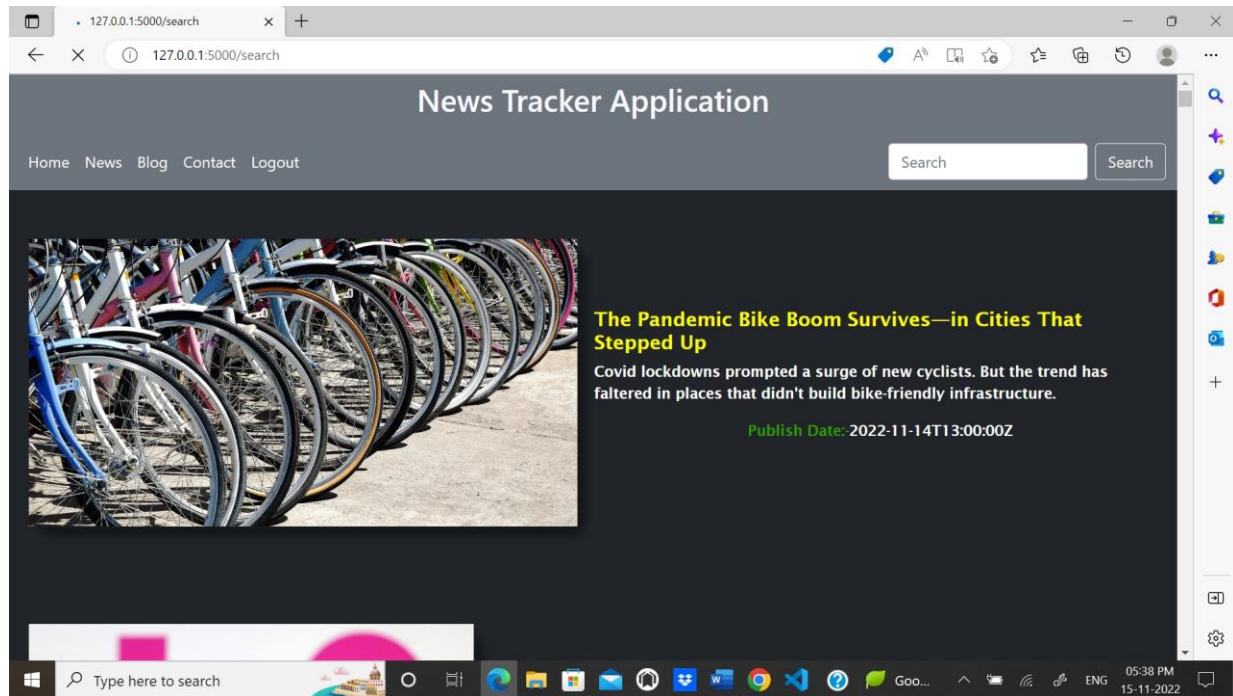

9.RESULTS

9.1 Performance Metrics

10. ADVANTAGES

1. All trending news will be displayed in a orderly manner.
2. We can costumize the topic which we are interested and make them display
3. The user experience are quit simple and friendly

10. DISADVANTAGES

1. Same news which is published in different websites can be displayed.
2. Delay response of news api can make the news collapse.

11. CONCLUSION

Thus the projected using IBM CLOUD is tested,verified and executed successfully.

12. Future scope

In future, we planned to implement this project in large scale which will be helpful and used by all the people.
